Strawberries

PLANT PATENT NO. 993

NEW

red rich
EVERBEARING

YOU CAN ALMOST "eat" those berries right off the page. A thousand words can't tell the story like this true-color picture does. Note how big and deep red those berries are—how thick and lush the foliage . . . Now, imagine biting into one: Ummmm so honey sweet that more sugar would seem a waste and that firm flesh texture is red clear through the core. That's RED RICH, folks, the biggest, reddest, sweetest berries you ever saw—and to top it all, it's an EVERBEARER that's really everbearing.

PERFECT FOR FREEZING—RED RICH is big, solid and firm clear through. It ripens evenly and possesses an abundance of natural sugar. Best of all, it won't mush-up when thawed.

It took 15,000 seedlings before the finest features of the Wayzata everbearing and the Fairfax June bearing were developed in RED RICH . . . it was worth it!

Planted in early spring, RED RICH will bear in June all through the summer and into the fall. Because of its heavy yield fewer plants are needed—for the average family twenty-five plants per person are recommended. The crown and root system are exceptionally large as well as the leaves—a rugged plant, a heavy producer—for table, for freezing, for the commercial grower. Remember, only a limited supply of plants available—ORDER AT ONCE.

Limit 500 Red Rich Plants per customer

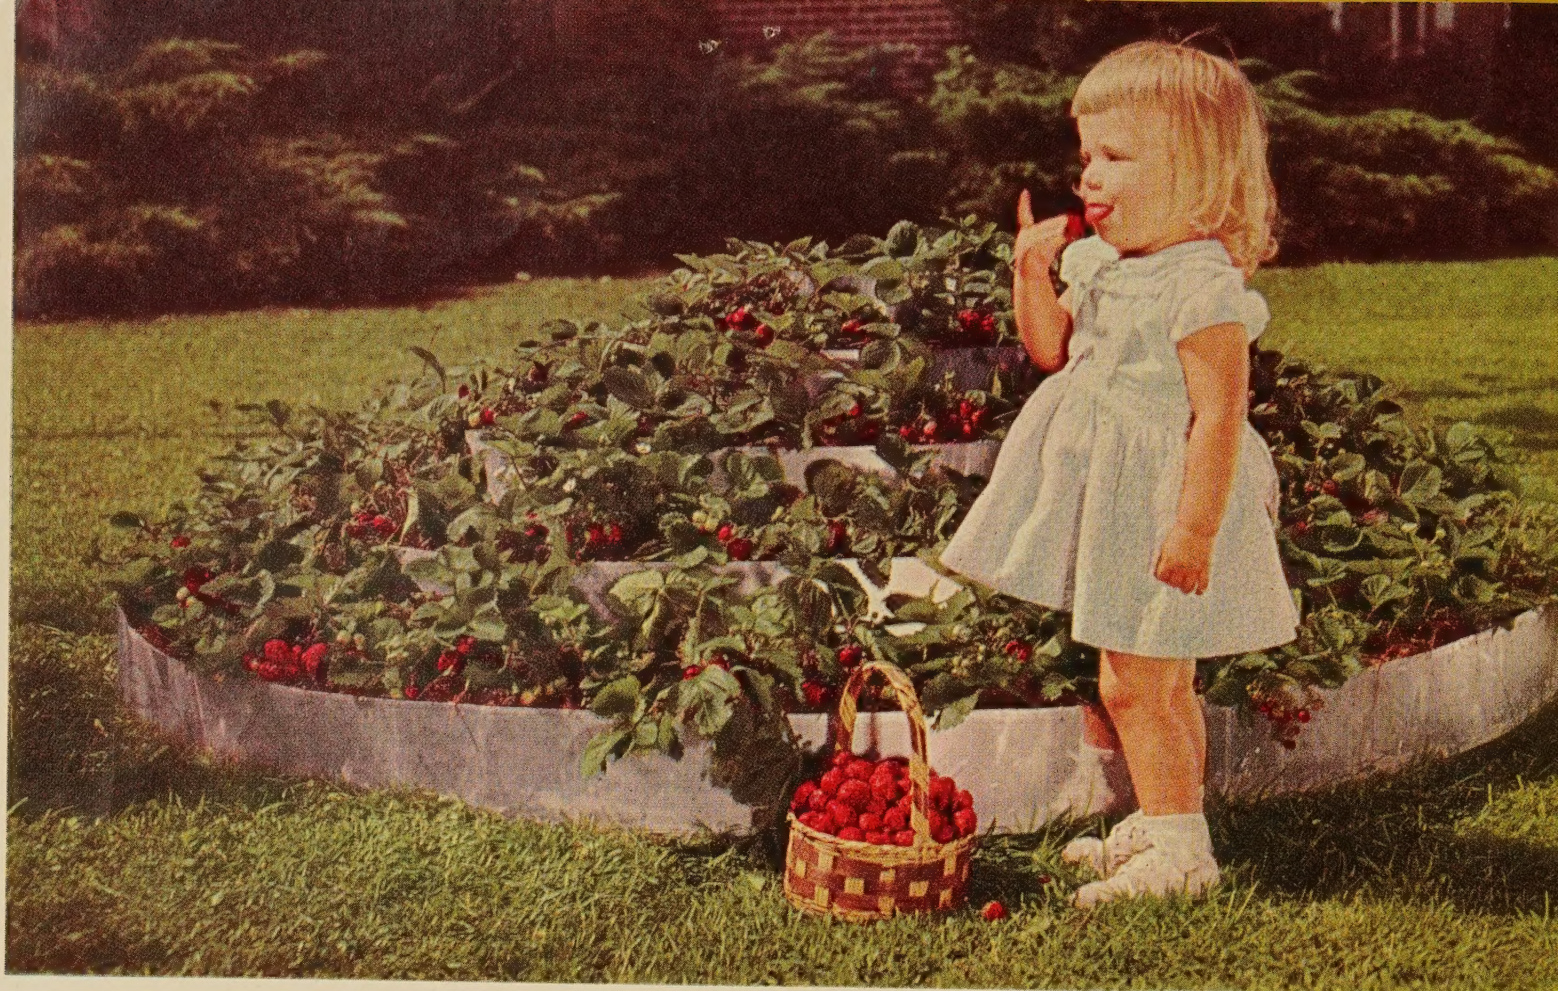

25 for \$5.00, 50 for \$8.50, 100 for \$15.00, 250 for \$32.50

The SWEDBERG NURSERY

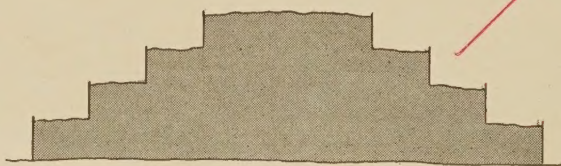

Growers Since 1915 - - Landscape Service

BATTLE LAKE, MINNESOTA

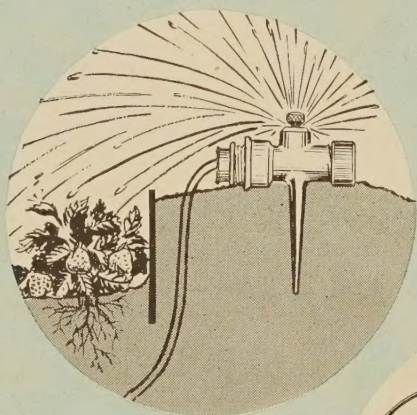

GROW MORE BERRIES

The bottom aluminum ring of the Pyramid Bed is 6 feet in diameter. (Each band is 5" wide). Merely place on ground, fill with rich soil. Walk over to settle. Repeat simple operation for remaining rings. That's all.

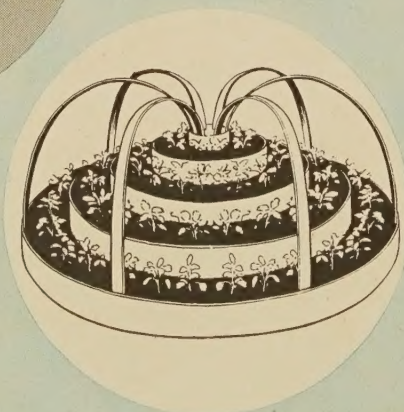

**the easy
PYRAMID GARDEN
way...**

Available with hose attachment. Copper tubing with nozzle is placed in bed before dirt. Special nozzle sprays entire bed. Merely connect hose and turn on. (optional)

Aluminum supporting strips quickly installed for holding transparent cover or protective netting. Cover makes miniature greenhouse for early planting and frost protection. Netting protects bed from birds. (Strips, cover, netting optional.)

In one-third the space as the conventional garden method you can enjoy an abundant full season growth of everbearing strawberries with a Pyramid Garden Bed. Easy to pick from — easy to care for, the attractive Pyramid Garden Bed adds beauty and real practical value to any garden or landscape. Used by some for early vegetable plants, flowers, etc., 50 RED RICH everbearing strawberry plants will yield vigorously all through the long growing season. One Pyramid Bed for a small family, two for the average is ample. Made of a tough aluminum alloy for durability—it will not rust or corrode. Add real beauty to your garden — real bounty for your table with a Pyramid Garden Bed. Order Today.

Pyramid Bed **\$9.25** — with 50 Red Rich plants **\$17.75**; with 75 Superfection plants **\$14.00**.

Optional: 6 Aluminum Strips **\$3.50**; Transparent Cover **\$4.50**; Protective Netting **\$3.75**; Complete Sprinkler **\$3.25**.

STANDARD MINNESOTA WINDBREAK

WHAT TO PLANT in Standard Minnesota Windbreak

Row 1 & 2 -Caragana, Russian Olive, Wild Fruits,
Willows or Chinese Elm.

Rows 3 & 5-Soft Maple or Norway Poplar. ↔

Rows 4 & 6-American Elm or Green Ash

Rows 7 & on-Can be Willows or better yet
some Spruce, Pine, or Am. Arbor Vitae.

APPLE & PLUM SEEDLINGS

25 for \$1.80; 100 for\$7.00

EVERGREENS

ARBOR VITAE

- A. PYRAMIDAL (D) Doorway evergreen growing compact without much shearing. Soft, green.
- A. AMERICAN (E) Sheared) Bright green soft flat foliage. Keep thick by shearing.
- A. GLOBE (C) Foliage bright soft green & it grows symmetrical but with shearing it can be grown into figure E.
- A. SIBERIAN (E) Darker green foliage than other Arbor Vitae. Almost blue-green. It can be sheared like Figure F. also.

UPRIGHT JUNIPERS

- J. VIRGINIANA (F) These Red Cedars vary in color but most of them are dark green to bluish-green and pairs are matched. They must be sheared. Stay green on north side.
- J. V. DUNDEE (F or D) A grafted Cedar that has thicker foliage; a deeper blue-green
- J. SCOPULORUM SILVER (F) The seedling types of Silver Junipers are many. We are offering grafted varieties; proved more hardy and grow nicer. Pathfinder, Welch, and Chandlers Silver Junipers.

LOW JUNIPERS

- J. SAVIN (B) Low bush type Juniper with a good dark green foliage. The best variety for this section. We have smaller sizes than listed under B&B Specimens.
- J. ANDORRA (A) Low ground cover type spreading juniper. Bright green all summer.

MUGHO PINE

- DWARF PINE (C) Rich bright green short needled pine that holds its color all the year round. Must be trimmed first week in June each year. Trimm round or flat.

PLANTING EVERGREENS

Make hole in ground 1 foot wider than width of ball. Fill crumbled soil around burlap on ball packing with heel or stick firmly as fill is made. Leave top of burlap showing, then soak tree. Fill in rest of hole to cover burlap (left on)

B & B MEANS

Balled & Burlaped or

Dirt Burlaped solid to roots.

STREAMLINER — 25 for \$1.75, 50 for \$2.75, 100 for \$5.50

June Bearing ...

TENNESSEE SHIPPER — A cross of the well-known Blakemore Missionary varieties, a high quality early strawberry plant that is very productive. A large, very firm, well-colored berry that sizes up good and retains its size throughout the season.

NEW FAIRLAND — A late introduction of the U.S. Department of Agriculture, Beltsville, Maryland. Ripens just a few days after the Premier when the demand is high for quality fruit. Large bright red berry of good quality.

NEW ARROWHEAD — A June bearing from the University of Minnesota Experiment Station. Plants are hardy, vigorous growers, very productive. Very similar growth habits to the well known Dunlap. Berries are large, firm, dark red and juicy. Prized for market, freezing and jam.

SPARKLE — (Med. late.) Originated by the New Jersey State Experimental Station. A vigorous grower and very productive. Berries are somewhat round in shape, of excellent quality, and splendid for freezing.

MAJESTIC (Mid-Season. Plant Patent No. 345.) Easily grown in most any soil or climate. Berries are large, deep scarlet red to the core. High sugar content makes them excellent for table and canning. Recommended for quick freezing.

AMBROSIA (Late) — One of the largest and latest strawberries known today. Berries are sparkling bright red, uniform, semi-pointed shape — delicious for every purpose. Ripen three weeks later than other varieties and bring a premium on the market.
